

OCION BLUE: YOUR NATURAL ALTERNATIVE

@ocionblue
ocionblue.com

WHAT IS IT?

Ocion Blue is an organic bactericide algaecide, which means it kills the bacteria & algae in your pool, hot tub, or swim spa water.

As a pool or hot tub owner, you've been told the only way to keep your water clean and sanitized is by using chlorine or bromine.

Chlorine works – but it's hard on everything – your skin, your hair, your clothing, your kids, even your pool equipment and surfaces. And some people can't tolerate it.

The thing about chlorine is Heat, sunlight, and UV rays make it dissipate quickly. So do hot tub jets and the amount of people in your pool or spa. So as soon as you put chlorine into your water, it starts to burn off. Even if there's nobody using the pool or spa. You might as well say goodbye to your money.

That's why we created Ocion Blue.

HOW DOES IT WORK?

Its natural ingredient is copper – which has been used for centuries to purify water.

Copper lasts longer than chlorine, staying in the water, working to keep it balanced and clean. The only thing Ocion Blue reacts to is bacteria & algae. That means you likely only need to check your levels when your pool or spa is being used.

If you've ever had an adverse reaction to chlorine or you're sensitive to certain products and you like using natural ingredients, you're going to want to try Ocion Blue.

It's odorless, gentle on skin, and all natural. No more needing to rinse after you go for a swim.

BENEFITS

- reduces your need for chlorine or bromine by as much as 90%
- reduces your need for other water balancing chemicals by 75%
- safe for pool equipment & surfaces
- works with all pool & spa systems
- great for absentee home owners
- extends pool liner life by 2x
- saves you 50% on cost of chlorine
- saves you time
- eco-friendly
- safe for your little ones & furry friends

One of the great things about Ocion Blue is whether you haven't used your hot tub for a month or your pool all winter, your water is just as you left it.

You don't need any special equipment to get started. Ocion Blue will work for whatever system you use, including UV, ozonator & saltwater systems, and whatever filtration system you prefer to use.

Ocion Blue is even easier to use when you use our mobile app to assist you.
