

OCION BLUE

Your Natural Alternative for Pool and Spa Water Care

What Is It

Ocion Blue is an organic bactericide and algaecide designed to help keep pool, hot tub, and spa water clean, clear, and balanced while reducing reliance on traditional chemicals.

Many traditional water care systems depend heavily on chlorine or bromine alone. While effective, these chemicals can be harsh on skin, eyes, hair, swimwear, pool equipment, and surfaces especially with frequent use.

Ocion Blue works alongside your existing water care routine to support healthier, more stable water conditions with fewer adjustments and a gentler overall experience.

Cleaner Water. Less Hassle. A More Comfortable Swim.

How Does It Work

Ocion Blue uses copper, a naturally occurring mineral that has been used for centuries in water treatment applications.

Its active ingredients help control bacteria and algae while remaining stable in the water longer than traditional sanitizers alone. Heat, sunlight, UV exposure, and heavy use can quickly reduce sanitizer levels, leading to constant testing and rebalancing.

Ocion Blue helps support more balanced water conditions, which can help reduce maintenance demands and improve overall water comfort.

Why Pool and Hot Tub Owners Choose Ocion Blue

Gentler Water Experience

- ✓ Helps reduce strong chemical odors
- ✓ More comfortable on skin and eyes
- ✓ Easier on hair and swimwear

Reduced Chemical Demand

- ✓ Helps reduce chlorine and bromine usage
- ✓ Minimizes frequent chemical adjustments
- ✓ Supports more stable water conditions

Easier Maintenance

- ✓ Less day-to-day monitoring
- ✓ Helps maintain water clarity longer
- ✓ Great for busy homeowners, vacation properties, and seasonal cottages

Equipment Friendly

- ✓ Compatible with existing water systems
- ✓ Compatible with pool and spa equipment
- ✓ Safe for pool liners, pumps, filters, and surfaces when used as directed

Compatible with All Major Systems

Ocion Blue works with:

- | | |
|--------------------|-------------------------------|
| ✓ Chlorine systems | ✓ Bromine systems |
| ✓ UV systems | ✓ Saltwater pools |
| ✓ Ozonators | ✓ Standard filtration systems |

A Smarter Way to Maintain Water

Whether you use your pool every day or only seasonally, Ocion Blue helps simplify water care while creating a cleaner, more comfortable swimming experience.

For even easier maintenance, the Ocion Blue mobile app provides dosing guidance and water care support right from your phone.
